

700H

The 700H is a robust two-person operation evacuation chair with a payload capacity of 159kg, suitable for spiral and narrow staircases. Designed for upward and downward evacuations, the telescopic handle and manual brake system are both adjustable to accommodate the passenger payload, enabling the operators to control the 700H.

FEATURES:

- 1 Telescopic extendable handle**
For comfortable and safe operator positioning and control.
- 2 Detachable seat and backrest**
Easy to clean and simple to replace if damaged or worn.
- 3 Adjustable passenger chest straps**
For passenger safety.
- 4 Adjustable brake**
For controlled descent whatever the passenger payload.
- 5 Stainless steel frame construction**
Strong, robust design.
- 6 Front grab handles**
Provides control for 2nd person.
- 7 Foot strap**
Secures passenger feet.
- 8 Unique track belt system**
Helps control smoothness and speed of ascent/descent.
